

## MyPBX Embedded IP PBX - NO MODULES

Product Name: MyPBX Embedded IP PBX - NO MODULES

Manufacturer: Yeastar

Model Number: TDM-PBX

Yeastar's MyPBX is a standalone embedded hybrid PBX for small businesses and remote branch offices of larger organizations (2-100 users per site). MyPBX also offers a hybrid solution (a combination of VoIP applications using legacy telecom equipment), an alternative for enterprises who are not yet ready to migrate to a complete VoIP solution.

A maximum of 8 x FXO ports may be installed due to the high CPU requirements of an analogue trunk call.
